You may view/print a scan of the original list [SCAN](#) - a monitor set to high resolution is recommended for clarity. Use your back button to return.

**Modifications made to scans:** In some instances, text was enhanced - there was still an occasional name or list which defied this effort to read it; the Master's signature is usually found at the bottom right corner of the page; some pages have been shortened; excessive black markings have been removed. The last two mods. were to enable the fastest possible display in your browser.
